Spain	165.63	+ 5.00

Slaughter Pig Marketing Summary

(Ref Weekly Tribune)

This week 10th April

Our market does not have time to take stock, prices must continue to rise, with everything else! Contributions for this week have stalled where used as one element of pricing in some contract deals, although the other elements have risen. Smaller and medium sized buyers without the same price configurations have continued contributing a reflection of SPP and Tribune prices combined and halved, or around 4-5p/kg. The German market stood for the first time in a while. SPP up 3.56p rising above the 5-year average by 2p at the start of Q2, which is needed, as the current reported COP is estimated at 203-216p/kg, assuming a carcass weight of 94kg. This puts the current situation in perspective, as the losses reported are £46-£61 per pig sold into the supply chain since energy and feed prices have risen further from the beginning of the year. So, still some way for prices to go before our industry is through its biggest challenge in decades. Let us hope the two short weeks ahead allow us to keep nibbling away at the backlogs. The sow market has stood on ahead of the two short weeks.

Weaner Marketing Summary

w/c 03/04/22

Regular contract weaners continue to flow better for now, with notably less being held a few extra days on farm as the available finishing shed space eases slightly. Very small pockets of interest are emerging outside contract arrangements, although feed costs continue to discourage new buyers. AHDB published 7kg price last week £34.07 h/d increasing £1.22p from the last recorded price in early March.
